**RE: Pre-Demolition Survey Report (PDSR) for Building 122 - Approval**

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the PDSR for Building 122, Revision 0 dated August 4, 2004. This PDSR was received on August 26, 2004. Based on the information contained in this PDSR, and the revised PDSR received on September 3, 2004, we are hereby approving the PDSR for Building 122 as revised.

As stated in this PDSR, Building 122 was initially thought to be a Type 1 Facility, but based on radiological contamination found during the initial characterization it was determined to be a Type 2 Facility. Although an RLCR was not completed or provided for our concurrence, we previously provided concurrence with the Type 2 determination for B122 and allowed decontamination to proceed as contained in a Contact Record dated 6/28/04. It is also recognized as you have stated in your accompanying letter dated August 19, 2004, that this PDSR will, in effect, act as the characterization report (RLCR) for B122.

If you have any questions regarding this correspondence please contact me at (303) 692-3367, or David Kruckek at (303) 692-3328.

Sincerely,

  
Steven H. Gunderson
